# WHY MBA IN FINANCE?

The MBA in Finance is tailored for ambitious professionals and motivated graduates aiming to upgrade their skills and qualifications and advance their leadership capabilities.

The course emphasizes strategic thinking and decision-making skills. Additionally, the programme equips students with the

ability to approach real-world financial challenges using a creative mindset and robust managerial expertise.

This course prepares graduates for careers in **financial analysis, project finance, risk management, corporate finance, consultancy,** and other related roles.

## HOW WILL I STUDY?

The course mainly follows a case-based learning approach, combining:

- Formal lectures to establish a strong theoretical foundation.
- Seminars and case studies that contextualise financial concepts.
- Practical workshops focused on financial strategy and risk assessment.
- Student-led sessions and guest talks by industry experts to bridge academia and practice.
- An independent, self-managed MBA capstone project that integrates learned concepts with real-world analysis.
